Summary

I build and operate software across tool integrations, data, and deployment. At Front Range Internet I handled production escalations and built diagnostics for the NOC; at Technomancy IT I build access-controlled connectors and maintain release and recovery tooling.

Skills

- MCP, mTLS
- Docker, PostgreSQL
- Monitoring, diagnostics, escalations
- Linux, networking, AWS

Professional Experience

Founder / Product Engineer / Systems Lead

Technomancy IT LLC

Present

- Build access-controlled connectors for SaaS and internal workflows using MCP and authenticated service boundaries.
- Keep tool access and tenant identity separate across shared services used by clients and internal workflows.

Senior Systems Engineer / Datacenter Architect

Front Range Internet Inc.

2015 - 2020

- Ran NOC operations and built diagnostics for hosting, colocation, and server workloads.
- Handled on-call escalations and verified recovery, and worked extensively with Docker.

Systems / Software Engineer

Office Evolution

2014 - 2015

- Automated router and firewall provisioning with Node.js and built a Linux-based router to separate office tenants.
- Mapped individual Wi-Fi access to the right office network.

Network & Systems Engineer

PlumChoice / Everon

2012 - 2014

- Diagnosed network and endpoint problems across managed-service customers, including on-call escalations.
- Built diagnostic tools for recurring support issues.

Infrastructure and Systems Focal

IBM

2010 - 2012

- Operated shared enterprise infrastructure and coordinated incident and change work across teams.
- Built an internal backup tool and wrote automation for repeatable operations.

Selected Projects

Technomancy IT Platform

Independent product

- Built a release workflow that tags images from Git, applies SQL migrations, and checks container health and public HTTP responses. A separate PostgreSQL restore check validates the backup checksum and restored tables.

Radar research infrastructure

Technomancy IT client

- Provided full-stack and DevOps support to the data-science and AI team on a contactless radar research project.

Education

Front Range Community College

Computer Science coursework

2011 - 2013
